PROFESSIONAL EXPERIENCE

Sigi Technologies

Frontend Developer

Dec 2024 – Present

- Develop and maintain scalable web applications using React, Next.js, Tailwind CSS, Bootstrap5.
- Ensure seamless cross-browser and multi-device user experiences with responsive design.
- Design intuitive UIs using Tailwind CSS and MUI, following modern frontend best practices.
- Debug, test, and optimize applications using tools like Chrome DevTools to ensure stable releases.

Programmers Force

Associate Software Engineer

Feb 2024 – Nov 2024

- Contributed to the development and maintenance of responsive web applications using React js, Next js HTML, CSS, JavaScript, and Bootstrap, ensuring cross-browser and multi-device compatibility.
- Worked closely with senior developers and UX/UI designers to translate designs into user-friendly interfaces while following frontend best practices and web standards.

EDUCATION & COURSES

BS in Software Engineering — CGPA: 3.49 / 4.00

University Institute of Information Technology (UIIT)

Courses:

The Complete JavaScript Course — Udemy React

The Complete Guide (incl Hooks, React Router, Redux) — Udemy

PROJECTS

[Paramount Liquor](#) | Leading online retailer offering a vast selection of wines, spirits, and beverages.

Tech Stack: React.js, Magento 2, Tailwind CSS, GraphQL

Key Contributions:

- Built clean, reusable, and user-friendly UI components with Tailwind CSS.
- Integrated GraphQL APIs
- Ensured cross-browser and multi-device compatibility for a smooth shopping experience.
- Debugged and optimized frontend issues using Chrome DevTools to improve performance and stability.
- Improved UI/UX based on feedback, design requirements, and modern frontend best practices.

[Iustdry Cleans](#) | On-demand laundry and dry-cleaning platform for seamless booking and order management.

Tech Stack: Next.js, Redux Toolkit (RTK), Tailwind CSS, WebSockets, Stripe, REST APIs, Vercel Storage, AWS Amplify

Key Contributions:

- Developed and maintained scalable frontend architecture using Next.js for high performance and SEO.
- Implemented state management with Redux Toolkit (RTK) for complex flows (ordering, authentication).
- Ensured a smooth and consistent user experience across multiple devices.
- Integrated reliable data handling and storage solutions using Vercel Storage

[Fomino](#) | Food ordering and delivery web platform enabling restaurant browsing and real-time order tracking.

Tech Stack: React.js, Bootstrap5, cPanel

Key Contributions:

- Developed and maintained multiple frontend components using React.js and Tailwind CSS for a consistent UI.
- Integrated APIs with backend services to enable dynamic content and real-time updates across the platform.
- Debugged and optimized UI components to improve overall performance and user experience.

[Busy Bean Coffee](#) | Online coffee retail and subscription platform providing a seamless e-commerce experience.

Tech Stack: React, React Router 6, Tailwind CSS, Stripe,

Key Contributions:

- Built a dynamic and responsive storefront using React and React Router 6 for seamless navigation.
- Integrated Stripe and Clover payment processors to handle secure transactions and subscriptions.
- Optimized content delivery and performance using AWS S3 and CloudFront CDN.
- Styled a modern, custom UI with Tailwind CSS to enhance the brand's digital presence.
